Raking Leaves in the Street

Leaf season is upon us, once again. The Biggs Public Works Department would like to remind our citizens that leaves cannot be raked into the street for the City to pick up. The City's current budget does not provide for pickup of leaves and our street sweeper was designed to sweep up litter and a small amount of leaves, but cannot handle the removal of leaf piles.

When residents rake leaves into the street and gutters, it causes the storm drains to become blocked and causes street flooding. It is against the Health and Safety Code for "accumulation of litter, debris, trimmings or trash within front and side yards visible to the public, including sidewalks, gutter, driveways, parking lots or the public right of way, which is generated on, or as a consequence of the use or maintenance of the property." Those who pile leaves in the street or sidewalk may face fines, though each year; we hope no one will be penalized.

Biggs residents are asked to place leaves into their yard waste container. If the cart provided is not big enough, residents can request an extra yard waste bin by calling City Hall at 868-5493. Another option is to compost the leaves, making valuable, environmental friendly, nutrient rich soil additive for gardens and flower beds.
